EDUCATION

Kalinga Institute of Industrial Technology

Bachelor of Technology in Computer Science | CGPA: 8.45/10

Bhubaneswar, ODISHA

Aug. 2024 – May 2028

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, HTML/CSS, SQL

Frameworks: React.js, Node.js, Express.js, Django

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA

Concepts: OOP, API Integration, File Handling, CRUD Operations

EXPERIENCE

Open Source Contributor

May 2026 – Present

GirlScript Summer of Code'26 (GSSoC)

- Contributed to open-source projects and collaborated with developers using Git and GitHub
- Enhancing problem-solving and team collaboration skills through active participation

Full Stack Development Intern

May 2026 – Present

CodeAlpha

- Developing applications using HTML, CSS, JavaScript, and backend technologies
- Working on frontend-backend integration, responsive UI design, and application functionality

Web Development Intern

May 2026 – Present

CodSoft

- Built a Personal Portfolio, Landing Page, and Calculator using HTML, CSS, and JavaScript
- Implemented responsive layouts, interactive UI components, and client-side functionality

Python Development Intern

May 2026 – Present

Pinnacle Labs

- Developed a Weather Forecast application using API integration and real-time weather data
- Built an Online Quiz Platform with score calculation and interactive frontend features
- Worked on Python logic building, user interaction handling, and clean UI structure

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a personal portfolio website showcasing skills, projects, and contact information
- Implemented responsive design, project showcase section, and resume download functionality

Student Management System | Java, OOP, File Handling

- Built a console-based Student Management System implementing CRUD operations and OOP concepts
- Added features like duplicate ID validation and persistent data storage using file handling

Weather Forecast Application | Python, API Integration

- Developed a weather forecasting application using real-time weather APIs
- Implemented dynamic weather data display with clean and interactive user interface

ACHIEVEMENTS

- Runner-Up — Dark Route Upside Down Multidisciplinary Hackathon (Among 400+ teams)
- Winner — Mind Quest Quiz (Problem Solving)
- Participant — Building Bad Hackathon (UI/UX Design Round)
- Organizer — CyberHunt Event, Cyber Peace Corps

LEADERSHIP & ACTIVITIES

- Cyber Peace Corps — Event Management Member; assisted in organizing and coordinating student events
- NSS SCE Volunteer — Participated in awareness drives, blood donation camps, and Shiksha Daan initiatives
- KIIT MasterChef 2025-26 Participant — Showcased teamwork, creativity, and time-management skills
